Dr. Kimchi comments, "The International Academy of Cardiology is dedicated to the advancement of global research in cardiovascular medicine through the support of scientific meetings and publications."

In his opening remarks, Dr. Kimchi commented, "Over the past 26 years, the World Congress on Heart Disease has been an outstanding meeting for aspiring young researchers to present their research and interact with senior investigators in a relaxed and convivial atmosphere."

Dr. Kimchi added, "The faculty of the Congress has repeatedly attested to the high quality of the research presented in these scientific sessions and the excellent interchange of ideas that transpires at each meeting."

The World Congress on Heart Disease, the annual scientific session of the International Academy of Cardiology, provides the opportunity for a comprehensive overview of current concepts and future directions in cardiovascular medicine.

"We are delighted by the interest which has been shown in this year's Congress from clinicians and investigators from 51 countries around the globe. The 392 oral and poster presentations for this congress were carefully selected by the Scientific Abstract Review Committee from over 700 submitted abstracts," said Dr. Kimchi.

Dr. Asher Kimchi, the Founder and Chairman of the World Congress on Heart Disease, is a former flight surgeon in the Israeli Air Force and is the Founder and Chairman of the International Academy of Cardiology. Dr. Kimchi is the Clinical Chief of the Division of Cardiology and the Co-Medical Director of the Preventive and Consultative Heart Center of Excellence at the Cedars-Sinai Heart Institute in Los Angeles, CA, USA. Dr. Kimchi holds the academic title of Clinical Professor of Medicine at Cedars-Sinai Medical Center and at David Geffen School of Medicine at UCLA. He is a Past-President of the American Heart Association, Los Angeles County Division.

Dr. Kimchi has been involved in medical education for many years. During the past 26 years Dr. Kimchi has served as organizer and chairman of 22 large international congresses on Heart Failure and Heart Disease. He is editor of eleven cardiology books and in 2010 he was elected as a Fellow of the International Academy of Cardiovascular Sciences.
