FOREWORD

This book is composed of invited lectures and free papers presented at the 14th World Congress on Heart Disease – International Academy of Cardiology Annual Scientific Sessions 2008, held in Toronto, ON, Canada, July 26-29, 2008.

The volume contains contributions by leading authorities on the latest research developments in Cardiovascular Medicine, primarily in the areas of Molecular and Cellular Biology, Coronary Artery Disease, Heart Failure, Cardiac Arrhythmias and Cardiac Surgery. The information included in these articles will prove to be of great value to cardiologists and scientists involved in research and patient care.

We are indebted to the members of the scientific committees and the abstract reviewers, who provided a wealth of important suggestions during the planning phase of the Congress. To the Congress faculty and all other Congress participants, we express our thanks for the quality of their presentations and for their cooperation in submitting manuscripts in a timely fashion. Finally, we acknowledge with great appreciation Dr. Anna Rosa Sailon and Dr. Eleonora Leardini from Medimond Medical Publications, for their help in editing and expediting the publication of this book.

Asher Kimchi, M.D, FACC, FACP, FAHA
INDEX

Molecular and Cellular Biology

Regulation of Intracellular Calcium in Ischemia-Reperfusion Injury
N.S. Dhalla, H.K. Saini-Chohan and A. Adameova ......................................................... 1

Intercalated Disc and Dystrophin-Glycoprotein Complex Remodeling in the Hearts of Mice Submitted to Severe Sepsis
M.R.N. Celes, D. Torres-Dueñas, E.C. Campos, C.M. Prado, F.Q. Cunha and M.A. Rossi ................................................................................................................................. 9

The Role of the Chemokines in Healing Myocardial Infarction
N.G. Frangogiannis ........................................................................................................ 17

Serum Amyloid A: A Marker and Mediator of Acute Coronary Syndromes
J.G. Filep and D. El Kebir .............................................................................................. 23

Mechanisms of Increase in Intracellular Calcium by Inhibition of Sarcolemmal Na+-K+ ATPase
H.K. Saini-Chohan, A. Adameova and N.S. Dhalla ..................................................... 29

Vascular Biology, Endothelial Function

Epicardial Coronary Endothelial Dysfunction Associated with Left Ventricular Hypertrophy in a Porcine Model
J. Forcillo, M.C. Aubin, A. Horn and L.P. Perrault .................................................. 37

Estrogen, Heat Shock Proteins and the Cardiovascular System
A.A. Knowlton and J.P. Stice .......................................................................................... 43

Coronary Microvascular Regulation by Angiotensin-II: Pathophysiological Implications
L. Kuo and T. Hein ........................................................................................................ 49

Contributions of Endoplasmic Reticulum (ER) Stress to Cardiovascular Disease
R.C. Austin, J.G. Dickhout, B. Hilditch, S. Basseri, S. Lhoták and J. Zhou ............... 57
Identification of Novel Anti-atherosclerotic Effects of Conjugated Linoleic Acid in Vascular Cells
S. McClelland, C. Cox, R. O’Connor, D. Fitzgerald and O. Belton ....................... 59

Systemic and Regional Hemodynamics of Hypoxic Piglets Treated with L-NMMA After Resuscitation
T.-F. Lee, C. Tymafichuk and P.-Y. Cheung ............................................................. 67

Differences Between New and Classic Intravenous Iron Preparations on Cardiovascular Toxicity in Normal Rats
J.E. Toblli, G. Cao, L. Oliveri and M. Angerosa ...................................................... 71

Hemodynamic Recovery of Hypoxic Piglets Treated with N-Acetylcysteine and NOS Inhibitor
T.-F. Lee, C. Tymafichuk and P.-Y. Cheung ............................................................. 79

Pleiotropic Gene Modulation by Aldosterone in the Human Endothelial Cell
P. Mirshahi, A. Bertauth, E. Ducros, J. Soria, M.K. Agarwal and M. Mirshahi .. 85

Gene and Cell Based Therapy

The Role of Endothelial Progenitor Cells in Atherosclerosis and Coronary Artery Disease
P.-H. Huang, J.-W. Chen and S.-J. Lin ................................................................. 91

How to Maximize the Benefit of the 17-Beta-Estradiol in Vascular Healing?
I. Cloutier and J.F. Tanguay ................................................................. 95

Diagnostic Methods

Prognostic Value of Cardiovascular Magnetic Resonance Imaging in Patients with Ischemic Heart Disease
V. Bodi Peris ........................................................................................................... 101

Feasibility and Safety of Intravenous Administration of Landiolol Hydrochloride in Multislice Computed Tomography Coronary Angiography
S. Isobe, K. Sato, K. Sugiuara, T. Mimura, M. Kobayashi, C. Meno, M. Kato, H. Ishii and T. Murohara .................................................................................... 107

Atherosclerosis

Stress and the Atherosclerotic Plaque – A Review
P. Liebson ................................................................. 115
Index

Effect of Reduction of Iron Stores on Cardiovascular and Cancer Outcomes in Patients with Peripheral Arterial Disease
L. Zacharski, B. Chow, G. Shamayeva and P. Lavori .................................................. 121

Ischemic Heart Disease, Acute Myocardial Infarction

Prediction of Coronary Artery Disease
Takanobu Tomaru, Tsuyoshi Tabata, Takumi Kurosu, Keijiro Nakamura, Tsutomu Hirohashi, Kazuhiro Shimizu and Yuko Sugiyama ........................... 127

New Insights on Atherosclerotic Calcification in Patients with Kidney Disease
P.A. McCullough, K.M. Chinnaiyan, V. Agrawal, E. Danielewicz and G.S. Abela 133

Circadian Aspects of Cardiovascular Diseases
R. Manfredini, B. Boari, R. Salmi, F. Manfredini and M. Gallerani ................. 139

Prognosis of Early Postinfarction Angina
P. Erceg, N. Despotovic, D.P. Milosevic and M. Davidovic ........................... 147

Interventional Cardiology

Low Power Laser Irradiation: Therapeutic Potential in Cardiovascular Pathology
S.D. Gertz and L. Gavish ...................................................................................... 153

Update on Coronary Artery Bifurcation Lesions Classifications and Interventional Technique
M.R. Movahed ........................................................................................................ 163

Contrast-induced Nephropathy After Low- or Iso-osmolar Contrast Media Use in High-Risk Patients: Data from the CARE Trial

Prevalence and Predictors of Renal Artery Stenosis in Patients Undergoing Coronary Angiography
M. Ghasemi, B. Broumand and L. Miraizadeh ...................................................... 175

Using Enoxaprine During Percutaneous Coronary Intervention: A Pilot Study
M.J. Zibae Nezhad and H. Kamfiroozi .......................................................... 183
Peripheral Vascular Disease

Intermittent Claudication: Walking Disability or Cardiovascular Disease?
F. Manfredini, A.M. Malagoni, S. Mandini, M. Felisatti and R. Manfredini ...... 193

Dyslipoproteinemia, Hypertension, Diabetes Mellitus and Metabolic Syndrome

Metabolic Syndrome in Childhood and It's Impact on Adult Heart Disease: The Bogalusa Heart Study
G.S. Berenson for the Bogalusa Heart Study Group ........................................ 199

Gender-Specific Risk Factor Associated with Arterial Elastic Properties in the General Population
S. Makita, M. Tamada, A. Abiko, Y. Naganuma, S. Yonezawa, K. Kawamura and M. Nakamura .............................................................. 207

Omega-3-Acid Ethyl Esters Reduces Small Dense Low Density Lipoproteins Regardless of the Baseline Lipid Profile
S. Attia and K. Nader ........................................................................................ 211

Increased TNF-alpha Levels and Vasomotor Dysfunction in Hypertensive Patients with Insulin Resistance
A. Jurka, P. Tretjakovs, I. Bormane, D. Reihmane, I. Mikelsone, J. Jirgensons, G. Bals and A. Martinsons ............................................................... 219

HDL More Than LDL: An Achievable Goal. A Clinical Experience

Are Cardiovascular Risk Factors Different in Old Women and Men?
D. Pop, D. Zdrenghea, A. Sitar-Taut and M. Cebanu ........................................ 233

Pulmonary Circulation Aspects

Cardiac Biomarkers in Pulmonary Embolism and Lung Disease
